

Default voice-1 font (gregall, 8pt)

virga , pes , torculus , clivis .

Explicit voice argument

voice 1:  – voice 2: .

`\grenabcfont: local font/size override`

gregall at 8pt (default):   – grelaon at 10pt:   – back to gregall at 8pt:   (the override must not leak outside its group).

Same font at two different sizes (metric scaling)

gregall at 8pt:   – gregall at 20pt:   – gregall at 8pt again:   (all three virga/pes pairs should have correctly scaled proportions and kerning, not just a differently-sized copy of whatever the font's native size happened to produce).

Glyphs with significant letters

 and, at a different size, .
